Re: Bullis Charter School Request for Facilities 2019-2020

Dear Ms. Hersey:

The Los Altos School District ("District") responds to the November 1, 2018, Request for Facilities of Bullis Charter School ("BCS" or "Charter School") for the 2019-2020 school year pursuant to 5 CCR § 11969.9(d).

The regulations implementing Proposition 39, specifically Cal. Admin. Code, title 5, §11969.9(d), permit a school district to assess the projections upon which a charter school's facilities request is based, express objections to those projections, and issue a counterprojection:

The school district shall review the charter school's projections of in-district and total ADA and in-district and total classroom ADA and, on or before December 1, express any objections in writing and state the projections the district considers reasonable. If the district does not express objections in writing and state its own projections by the deadline, the charter school's projections are no longer subject to challenge, and the school district shall base its offer of facilities on those projections.

BCS makes a projection of 1058 in-district classroom A.D.A. for the 2019-2020 school year. The District notes that the current BCS charter does not call for enrollment above 908 students, and thereby reserves the right under Cal. Admin. Code, title 5, §11969.9(d) to, and hereby does, make an objection and counterprojection of 880.76 A.D.A., pending BCS obtaining a material revision of its charter to include its projected enrollment for the duration of its charter term.

Sincerely,

Randall Kenyon
Assistant Superintendent, Business Services
